SUMMARY

Certified Salesforce Administrator (Platform Administrator I & II) with hands-on experience across two Salesforce roles in **Sales Cloud administration** — user and security management, **record-triggered Flows, validation rules, reports and dashboards**, and data management — plus working knowledge of **Lightning Web Components (LWC), JavaScript, HTML, CSS, Apex and SOQL**. Currently a Specialist (Fraud Care) at **Barclays UK**, working under **FCA and GDPR controls**.

SKILLS

- **Salesforce Administration:** Sales Cloud | Objects & Fields | Page Layouts | Record Types | Lightning App Builder | Profiles | Roles | Permission Sets | Sharing Rules
- **Automation:** Record-Triggered Flows | Screen Flows | Scheduled Flows | Approval Processes | Validation Rules
- **Development:** Lightning Web Components (LWC) | JavaScript (ES6+) | HTML | CSS | Apex | SOQL | Lightning Data Service
- **Data & Reporting:** Data Loader | Data Import Wizard | Duplicate Management | Data Quality | Reports | Dashboards | Custom Report Types
- **Tools:** Salesforce CLI | VS Code | Salesforce Inspector | Git | Jira | Change Sets

PROFESSIONAL EXPERIENCE

Specialist Fraud Care - Barclays UK | Glasgow, United Kingdom **Jun 2025 - Present**

- Operated **FullServe** and the **Core Banking Platform** under **FCA and GDPR controls** in a high-volume regulated banking environment, maintaining a **100% QA pass rate**.
- Delivered **training and coaching sessions** for new joiners on core banking systems, policies and case-handling, contributing to **18+ NPS team scores**.

Junior Salesforce Developer - Sonata Software | Bangalore, India **Aug 2022 - Nov 2023**

- Administered **Salesforce Sales Cloud** for **120+ users** on client engagements for **ASSA ABLOY** and **Aareon**, across Sales, Marketing and Customer Support, managing **user onboarding, profiles, permission sets, roles** and data access.
- Designed, developed and maintained **15+ Salesforce Flows**, including **record-triggered and Screen Flows**, automating lead assignment, opportunity updates, follow-up tasks and **approval processes**.
- Built and optimised **25+ reports and 8 dashboards** tracking lead conversion, sales pipeline, opportunity performance and team KPIs.
- Configured **custom objects, fields, page layouts, record types** and **validation rules**, reducing incomplete record submissions by **30%**.
- Developed a custom **Lightning Web Component (LWC)** using **JavaScript, HTML and CSS**, integrating **Apex and SOQL** for dynamic lead search, filtering and prioritisation.
- Automated lead assignment and follow-up processes with **Salesforce Flow**, reducing manual administrative effort by approximately **10 hours per week**.
- Resolved an average of **20–25 Salesforce support tickets per month**, covering access issues, Flow errors, reporting requests and configuration changes.
- Improved self-service reporting and standardised user processes, reducing recurring Salesforce support tickets by **20%**.
- Migrated and cleansed **50,000+ Lead, Contact and Account records** using **Data Loader**, with field mapping, duplicate checks and post-migration validation.
- Supported **sandbox testing, UAT** and production deployments using **Change Sets** and **Salesforce CLI**.

Junior Salesforce Administrator - Dream Buzz Solutions | Bangalore, India **May 2020 - Jan 2022**

- Supported **Salesforce administration** for approximately **60 users**, assisting with account setup, permission assignments and troubleshooting.
- Built **5 Salesforce Flows** automating task creation, record updates and email notifications.
- Created **10+ reports and 3 dashboards** giving sales managers visibility into lead activity and opportunity performance.
- Assisted with the cleansing and import of **15,000+ Salesforce records** using **Data Import Wizard** and **Data Loader**.
- Helped resolve **10–15 support tickets per week**, including login issues, access requests and data quality problems.
- Created **user documentation** and delivered basic **Salesforce training**, reducing repetitive support requests and improving user adoption.

KEY PROJECTS

Lead Management Automation & Custom LWC Dashboard (Salesforce Developer Org, 2026 - Certification Project)

Tools used: Sales Cloud | Flow | LWC | JavaScript | Apex | SOQL | Lightning App Builder | Reports & Dashboards

- Configured **Lead fields, page layouts, validation rules and permission sets** to support the lead qualification process.
- Built **record-triggered Flows** to automatically assign incoming leads by **region and lead source**.
- Developed a custom **Lightning Web Component (LWC)** in JavaScript, HTML and CSS with **search, filtering, sorting**, error handling and loading indicators.
- Used **Apex controllers and SOQL** to retrieve lead records, and surfaced the component on a Sales workspace page via **Lightning App Builder**.
- Created **reports and dashboards** tracking lead status, conversion and assignment; validated through functional testing and **UAT**.

Opportunity Approval & Sales Process Automation (Salesforce Developer Org, 2026 - Certification Project)

Tools used: Salesforce Flow | Approval Processes | Validation Rules | Reports & Dashboards

- Configured **Opportunity stages, custom fields and page layouts** to standardise the sales process.
- Built a **Screen Flow** guiding sales reps through discount approval requests, with **approval routing by discount threshold**.
- Added **validation rules** preventing incomplete opportunities from progressing, plus automated notifications and follow-up tasks for pending approvals.
- Built **dashboards** monitoring approval requests, opportunity aging and pipeline performance.

EDUCATION

MSc, Advanced Computer Science **Jan 2024 - Jan 2025**
University of Strathclyde | Merit

BEng, Computer Science **Apr 2018 - Apr 2022**
Global Academy of Technology
